## Swedish Embedded Award

Last day of registration 2022-09-15

### Criteria

The Swedish Embedded Award 2022 will be limited to student category only. All entries in the competition shall use the embedded processor(s) and associated software for their function and may be based on existing platforms.

- ✓ Commercially interesting end product
- ✓ Based on innovative design
- ✓ There must be a working prototype
- ✓ The material must be easy to understand and well presented
- ✓ Representatives(s) must be able to present the product/prototype at the media meeting

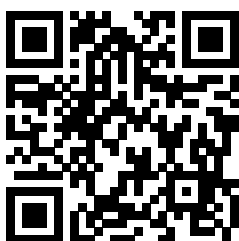

### First prize

The winner will receive a scholarship of SEK 50,000 and be announced at the Embedded Conference Scandinavia!

### More information

- ✓ The jury nominates entries in the competition.
- ✓ The nominees will be contacted by the jury in mid-September
- ✓ All contributions will be answered as to whether they have been nominated or not
- ✓ The nominated entries are invited to a jury and media meeting in **Stockholm October 20**, where the entry is shown and a 2-minute pitch in English shall be made.
- ✓ The pitch will be filmed and used for marketing purposes and shown at the conference
- ✓ The nominated entries have the opportunity to apply for compensation for travel and accommodation in connection with the media meeting
